

x_{last} : last observed state

high-resolution baseline for residual prediction

$$x_{last} \in \mathbb{R}^{4 \times 180 \times 360}$$

x_{last}

TOS
sea-surface temperature

ZOS
sea-surface height

TAUU / TAUW
surface wind stress

$$\hat{x}_{t+1} = x_{last} + \Delta y_{t+1}$$
